Cat 3406b 7fb pin pump and motor timing.
The 3406B injection pump is basically the same from 310HP all the way up to 425HP. The difference is the static timing on the cam. It is engraved on the end where the timing advance goes. Timing has lowered through the years for emissions reasons.

3406B injection pump differences | The Diesel Stop
All Caterpillar ESNs have a similar format, which makes them pretty easy to identify. They all begin with a three number/letter prefix, which is then followed by 7 digits. The prefixes will correspond to a particular model, and usually to a certain subsets of the model.
