The Birth of the Modern World is a wonderfully ambitious book that effectively demonstrates the global nature of the modern world and the need to decentre national histories and think big. It is a 'thematic history' demonstrating how 'historical trends and sequences of events, which have been treated separately in regional or national histories, can be brought together' (p. 1).

In reading The Birth of the Modern World I was reminded of two works: Paul Kennedy's Rise and Fall of Great Powers, and Benedict Anderson's Imagined Communities. At its most basic, Kennedy ' s ambitious book is a history of Great Power nations over the last 500 years. Kennedy uses economic indicators, debt levels, population figures, national income, and per capita income to build a ...
