One of the main reasons for publishing this second edition of "Thyroid Cancer" is the fact that the first edition has sold out. Furthermore, during the 4 years following the publication of the first edition in 2001, some progress, mainly in the basic sciences (molecular biology), has been made. The most prominent change in the clinical sciences has been the new classification of thyroid ...

Needing Second (or Third or more)
Thyroid Cancer Surgery: Persistent or
Recurrent Thyroid Cancer Thyroid cancer
surgery for recurrence (cancer that has
come back) or persistent disease
(cancer that remains after initial
therapy) depends mainly on where the
cancer is, although other factors may be
important as well.

Needing Second (or Third or more) Thyroid Cancer Surgery ...

Hello. I am wondering if anyone has a
second cancer following thyroid cancer?
I was told for 14 years that the 1cm
nodule on the right side of my thyroid
was benign. In 2/2020 the 5th biopsy
came back cancer with tumor 1.5cm. My
surgeon at JHopkins said I only need to
take out half the thyroid.

Thyroid cancer raises risk of second cancer - Oneindia News

As the population of cancer survivors has increased and continues to age, the occurrence of second cancers has risen dramatically—from 9% of all cancer diagnoses in 1975-1979 to 19% in 2005-2009. The Childhood Cancer Survivor Study, a cohort of more than 14,000 childhood cancer survivors with detail ...

The rising incidence of second cancers: patterns of ...

Most people with thyroid cancer undergo surgery to remove the thyroid. Which operation your doctor might recommend depends on the type of thyroid cancer, the size of the cancer, whether the cancer has spread beyond the thyroid and the results of an ultrasound exam of the entire thyroid gland. Operations used to treat thyroid cancer include:
