The collections also include classic literature and books that are obsolete.

The Visioneers How A Group

The Visioneers tells the story of how these scientists and the communities they fostered imagined, designed, and popularized speculative technologies such as space colonies and nanotechnologies. Patrick McCray traces how these visioneers blended countercultural ideals with hard science, entrepreneurship, libertarianism, and unbridled optimism about the future.

The Visioneers: How a Group of Elite Scientists Pursued ...

The Visioneers by Patrick McCray traces the careers of two visionary engineers: Gerard Kitchen O'Neill (1927 - 1992) and K. Eric Drexler (1955). Since both men were strongly influenced by the 1972 classic Limits to Growth, McCray sets the stage with a detailed account of the Malthusian vision set forth in Limits in the first chapter: Utopia or Oblivion for Spaceship Earth?
